Weed Dept

My wife and I just got back from a 1,300+ mile trip. We drove through Iowa, Wisconsin, Illinois, Minnesota and South Dakota.

We looked at weeds so out of control in the ditches in every state except South Dakota. I would say the farmers had their weeds under control but the road ways were unreal.

Weeds control is a very trying deal but South Dakota seems to be trying. I will ~~see~~ narrow that down to Brookings County.
