STAFF REPORT:

Agenda Items:

- 9:00 AM: Cindy Danningbring is the Executive Director of Inter-Lakes Community Action Partnership. She asked to meet with the board to provide an update on activities happening in Brookings County.
- Letter of Intent: This would authorize Chairperson Krogman to sign the letter included in the packet, indicating the county's intention to purchase the OAC building and property.
- Agreement with Brenda Colombe: This is a similar agreement entered into with Colombe for 2016 to assist the Finance Office. This is a budgeted item in 2017 as well.
- Pay Plan Resolution: This resolution establishes the pay plan for FY2017. It sets the positions and wage grades that those positions fall under in each department.
- Deputy State's Attorney Resolution: By statute, the board may authorize the State's Attorney to hire an additional Deputy State's Attorney. This is done by resolution.
- Contingency Resolution: Vicki and I have continued to look at budgets and anticipate additional expenses. In doing so, more contingency is needed.
- Withdrawal of Automatic Supplement: The State Auditors said we should not use this revenue to supplement the JDC expenses. As far as giving it to the Teen Court program, they said that is a board decision, but it isn't necessary. They suggested leaving it as revenue and not supplementing it anywhere.
- Fire Dept Transfer: This is an annual transfer of remaining budget to the long-term Fire Dept Fund.
- Designations: With the General Fund, I've estimated \$450,000 in additional expenses for 2016 between claims and payroll. The report in the packet indicates what and/or how each line item can be spent and the estimates with the different designation amounts. I've also included items that that board has discussed funding.

Director's Report:

- Please plan to turn in your First District Surveys that were handed out at the meeting on December 20th.
- The first meeting of 2017 is Tuesday, January 3rd. Judge Stoltenburg will administer oaths at 8:15 a.m. Board and Department Head photos will take place at 8:30 a.m. The meeting will begin at 9:00 a.m.

Upcoming Dates:

- *County Offices will be closed on Friday, December 23rd from 12:00 p.m. to 5:00 p.m. and all day on Monday, December 26th in honor of the Christmas holiday.*
- *The board has been invited to attend the retirement celebration of State's Attorney Clyde Calhoon on Thursday, December 29th from 2:00 p.m. to 4:00 p.m. in the Chambers of the City and County Government Center.*
- *The board has been invited to attend a retirement celebration for State's Attorney Clyde Calhoon on Friday, December 30th at 5:00 p.m. at the Elk's Lodge in Brookings.*
- *County Offices will be closed on Monday, January 2nd in honor of the New Year's Day holiday.*

RE: Volga Dairy Manure Management System
As-Built Plans Review

Dear Mr. Verpaalen:

The Department of Environment and Natural Resources (DENR) received three copies of the as-built plans for the modifications to your approved manure management system on December 12, 2016. The manure management system is located in the Southwest $\frac{1}{4}$ of Section 34, Township 110 North, Range 51 West in Brookings County, South Dakota.

Your permitted manure management system is for a housed lot feeding a maximum of 1,750-head of dairy cattle consisting of 1,630 mature dairy cows and 120 calves. Your system consists of two freestall barns and a special needs barn with flush systems, a dry cow barn, a manure pack calf barn, a manure reception pit, a milk parlor, a special needs milk parlor, a manure solids separator, piping, diversion dikes or channels, a feed storage area, a solid manure stacking area, two holding ponds, and 0.8 acres of drainage area. The solids stacking pad is designed for at least 270 days of solids storage capacity. The designed capacity of the holding ponds is at least 270 days of liquid storage capacity. The department has approved plans for placing concrete on the manure stacking area, additions on one of the existing freestall barns, two calf sheds, and increasing the maximum animal numbers to 1,900-head of dairy cattle consisting of 1,750-head of mature dairy cattle and 150 calves.

We approved revised plans and specifications for the calf sheds on November 23, 2016. The as-built changes consist of the following:

- The newly constructed north shed will be used for hay storage instead of housing calf huts; and
- A plan sheet showing the extent of the concrete placed on the solid manure stacking area was submitted.

We have reviewed and hereby approve the changes shown on the as-built plans. Two copies of the as-built plans are being kept for our files. Please replace the appropriate pages in your plans

and specifications booklet with the revised pages enclosed with this letter and add any additional pages enclosed with this letter into your plans and specifications booklet.

Proposed Barns

The as-built site plan sheet includes a proposed calf barn and a proposed freestall barn that have not been approved. The proposed barns are currently in a 30 day public comment period, being reviewed by DENR, and will be addressed in a separate letter. **You cannot begin construction of the proposed barns without department approval.**

You are responsible for contacting the local planning and zoning office in the county where manure application will take place to determine if there are any local ordinances or requirements with which you need to comply. It is up to local government to enforce their local ordinances.

New federal regulations for concentrated animal feeding operations (CAFO's) were published in the *Federal Register* on November 20, 2008. Federal law dictates that these types of permits expire every five years, at which time the state has to reissue a new permit. The current general permit expired October 19, 2008, and is currently administratively extended. Until program changes can be made and a new general permit is issued, the current permit will remain in effect. A contested case hearing was held on September 27-29, 2016. More information can be found on the department's one-stop contested case website at <http://denr.sd.gov/ccdocs.aspx?CCID=CCID25>.

Once the permit is reissued, the department will provide every permitted and approved operation information about when they need to apply for coverage under the reissued permit and the options they need to consider.

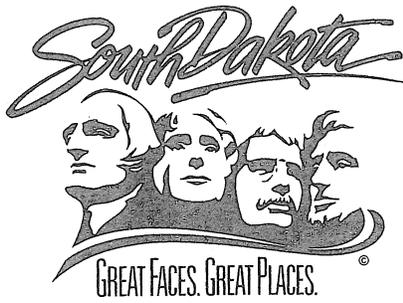

If you have any questions regarding the content of this letter, please feel free to contact Ben Myers, Feedlot Permit Program at (605) 773-3351. Thank you for your cooperation.

Sincerely,

RE: Volga Dairy Manure Management System
Revised Certificate of Compliance

Dear Mr. Verpaalen:

As you are aware, the department issues a Certificate of Compliance for manure management systems that have had plans and specifications approved and are constructed as designed. We have received an amended Notice of Completion for your animal waste management system and are issuing you a revised Certificate of Compliance.

The Certificate of Compliance is for 1,900-head of dairy cattle at your operation consisting of 1,750 mature dairy cattle and 150 calves. The components included in the amended Notice of Completion consist of the calf shed and the placement of concrete on the solids stacking pad. The certificate shall remain in place until we receive notices of completion for expansions or for new system components at your operation and issue the dairy another revised certificate.

Also, you have completed the requirements to obtain coverage under the general water pollution control permit for concentrated animal feeding operations for the new components of your operation. I am granting coverage under the permit for the calf shed and placement of concrete on the solids stacking pad (**permit number SDG-0100006**). You are required to operate in compliance with the terms and conditions of this permit.

As was discussed with you during previous inspections, buffer zones are required around land application areas. Please review the buffer zone requirements on the land application maps included with the nutrient management plan in Appendix D of the permit prior to land applying manure.
