they now owned the land. Arjan Blok noted that they had reached an agreement with neighbors and included it in the purchase agreement that only 12 animals could be located on the property. Haugen clarified, "it was mentioned that a replat be required, but Brookings County does not require platting of property. A footage description is a legal description and accepted by the Register of Deeds." Bartley noted that requirements were met and he had no problem passing the request. A member of the audience questioned making a comment. Ford and Haugen announced that the public hearing portion had occurred at the prior meeting on July 7, 2020 and had been closed at that meeting. The meeting had been tabled to allow for the board to gather more information, which had been gathered and ask any more questions of the applicant. Bartley added, "The public hearing has been closed, that is correct, at this point it is commission questions." He addressed Ms. Blok to confirm that the purchase agreement stated a limit of animals. Haugen noted the restrictive covenants were filed with the deed and presented a visual of the papers described. Bartley noted a binding covenant was filed with the sale. Not an agreement with the neighbors. Findings of Facts were reviewed and completed by the board and placed on file.

Meeting Minutes DRAFT

PUBLIC HEARING: Applicant Robert Winter informed those present he had nothing further to add Haugen's report.

Proponents: None.

Opponents: Those present that spoke in opposition were: Kevin Telkamp and Keith Allison. Concerns voiced were: 1) Weeds and poor control adversely affecting neighboring land. 2) Concerns with truck traffic and causing road issues. Haugen noted and read thru calls, emails and letters that had been received from: Pamela Telkamp, Lisa Telkamp-Castro and Leona Telkamp. Items had been placed online and filed.

DISCUSSION: Davis asked: 1) who was currently operating the gravel pit? 2) If the location of proposed cement plant could be moved to a different area of the existing gravel pit? 3) Question of dust during processing. Robert Winter noted he and his brother each operated 1/2 of the pit. The proposed cement plant was planned to be centrally located but could be moved on the other side (west side) of road coming into the pit and dust collectors were used, and no dust escaped. Winter asked to address road concern noting that current traffic on 473<sup>rd</sup> was high due to the area roads being closed going thru town so L.G. Everist and Bowes were also using the road more. Bartley noted that if 20<sup>th</sup> Street overpass gets constructed truck traffic will greatly lessen. Bartley encouraged Winter's to closely monitor and control weeds, and noted he had no issue with proposed location and no need to move proposed plant within the pit. Bartley confirmed that a reclamation plan was on file for the pit. Findings of Facts were reviewed and completed by the board and placed on file.

Prepared by Richard Haugen

Applicant/Owner: Tena Haraldson, 7200 S Louise Ave, Sioux Falls, SD 57108

Site: 136 and 138S Lake Dr, Arlington, SD 57212

Legal Description: “Plat of Lot 2B and 3A of Lake Poinsett Heights Addition, Christoffer Madsen’s Subdivision in Government Lots 3 and 4 in Section 5, T112N, R52W, of the 5<sup>th</sup> P.M., Brookings County, South Dakota.”

2020plat019: Tena Haraldson is re-platting her lot at Lake Poinsett to the ordinary high water mark and property line adjustment between cabins on Lot 2 and Lot 3. I have included the original plat of Lake Poinsett Heights, Christoffer Madsen Subdivision in this report. The width of the lot will stay the same, it is the depth of the lot that is being updated down to the Ordinary High Water Mark. The applicant owns both lots, the cabin on lot 3A was built in 1950 and the cabin built on lot 2B was built in 1930. The lot line between Lot 2 and Lot 3 was adjusted slightly so that each cabin is on the appropriate lot.

# 2020var011 – September 1, 2020

Prepared by Richard Haugen

Applicant: Dave Vanderwal, 1206 N. Samara, Volga, SD 57071

Legal Description: “NW1/4 NW1/4 NW1/4 of Section 14, T110N, R51W (Volga Township)”

*Article 11.00: Section 11.01 “A” Agricultural District: Area Regulations # 2: Front Yard: The minimum depth of the front yard shall be one hundred (100) feet. A corner lot will have two front yards.”*

2020var011: Dave Vanderwal has applied for a variance to move in a use residence, 120 feet from the center of Samara Ave (464<sup>th</sup> Ave), a variance of 30 feet. The required setback is 150 feet from the center of the road. The existing house is becoming structurally unsound and will be removed. The existing house is 111 feet from the center of the road. The proposed used residence will be 120 feet from the center of the road, 9 feet farther back than the current residence. The applicant has a well that is actively being used that is preventing him from meeting the required setback requirement. The used house is being moved off from another farm that they own located at 730 N Samara Ave and that lot will be used for feed or machinery storage. The applicant has all of the adjoining landowner’s signatures as required by the Zoning Ordinance, to move in a used house onto his property.

Things to consider are shape and size of farm yard and location of existing well.

Public notices were published in the Brookings Register on August 18 and 25, 2020 and the Volga Tribune on August 20 and 27, 2020.

Letters were sent to the adjoining landowner’s, Volga Township Chairman and Clerk.

Prepared by Richard Haugen

Applicant/Owner: Loren Hacker, 113 Lac Qui Parle Ave N, Canby, MN 56220

Site Address: 751 E Lake Hendricks Drive, Hendricks, MN 56136

Legal Description: “Lot 1 Charles Cove Addition in the SW1/4 of Section 22, T112N, R47W (Lake Hendricks Township).”

*Brookings County Zoning Ordinance: Article IV District Requirements: Chapter 4.03 “LP” Lake-Park District: Section 4.03.03. Density, Area and Yard Regulation (Side yard).*

2020var013: Loren Hacker has applied for a variance to build a 24' x 27' garage with a 9' sidewall, 4 feet from the side property line, a variance of 4 feet. The required setback is 8 feet from the side property line. The proposed garage will be attached to the 20'x20' existing garage.

To: Brookings County Board of Adjustment  
520 3<sup>rd</sup> St, Suite 200  
Brookings, South Dakota 57006

A.) I/We, the undersigned property owner (s), do hereby petition the Board of Adjustment of Brookings County, South Dakota, to grant a Variance to the Brookings County Zoning Regulations for the purpose of:

Construction of a 24' x 27' garage AND a  
60' tile line.

B.) Section(s) of Zoning Regulations to be exempted:

(Side yard setback of 8')  
Allowing a 4' setback.

Article 14 District Reg.: Chapter 4.03 "LP" Lake Park District:  
Section 4.03.03. Density, Area + Yard Reg. (Min. Side Yard).

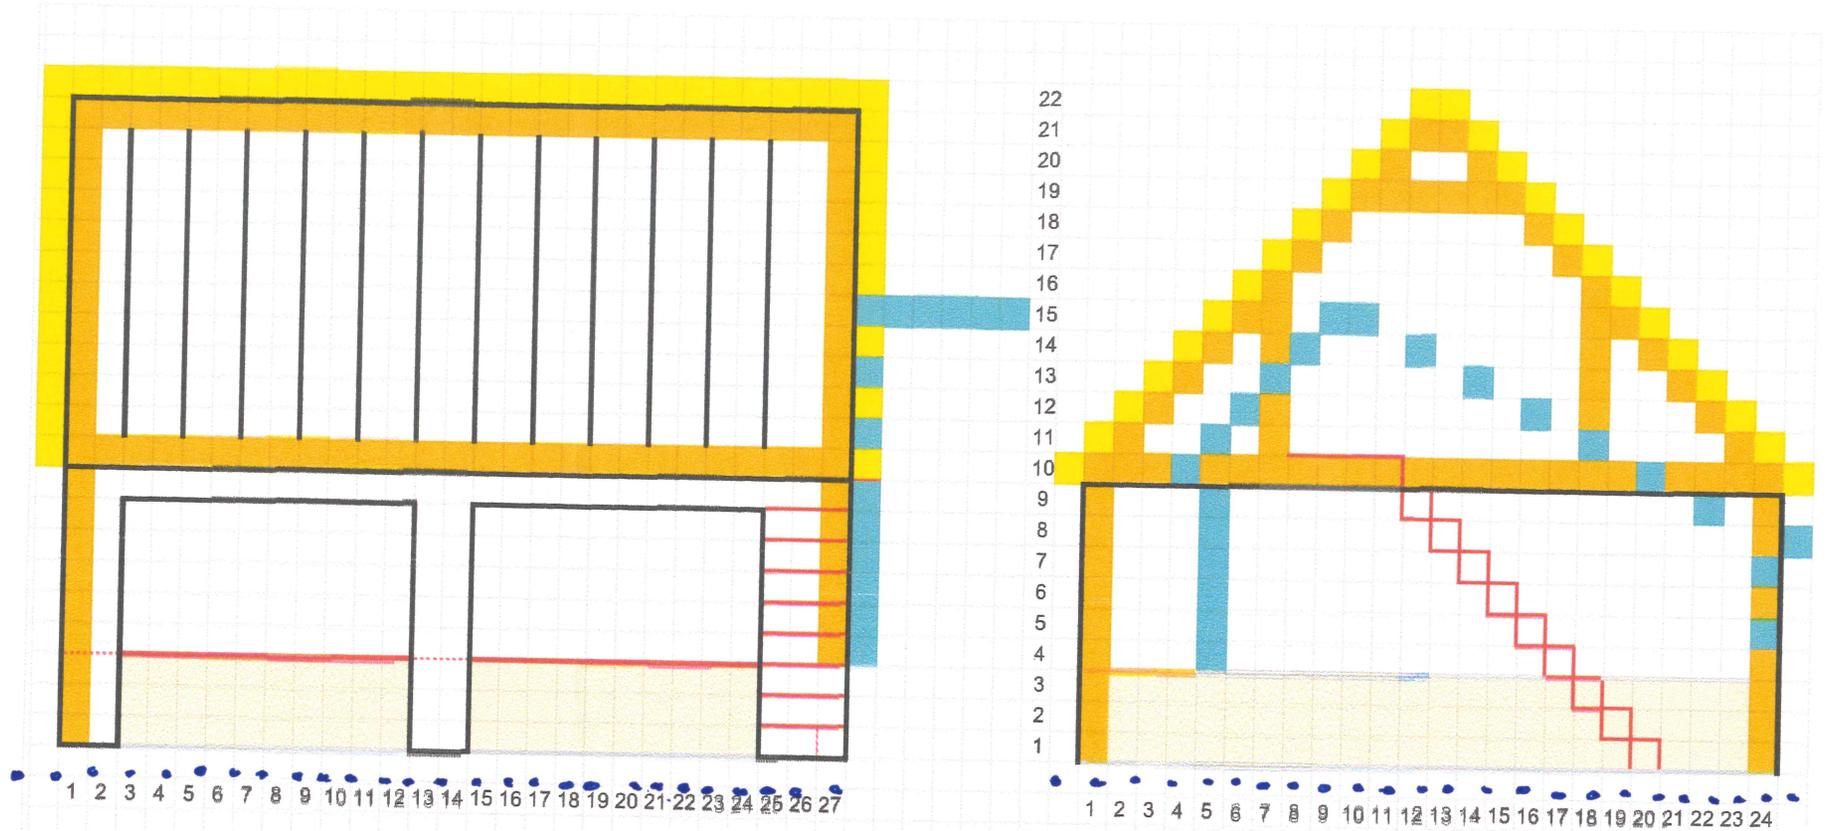

C.) Special conditions and circumstances that exist which are peculiar to the land, structure, or buildings in the same district: that literal interpretation of the provisions of this regulation would deprive the applicant of rights commonly enjoyed by other properties in the same district under terms of this regulation: that the special conditions and circumstances do not result from the actions of the applicant, and that granting the variance requested will not confer on the applicant, and privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

An existing shed is located 8' from the side yard property  
line. To allow the roof/eaves of the proposed garage  
to cover the valley created by attaching the shed's  
existing roof. The narrow width of the lot makes  
construction difficult between the 8' side yard  
setbacks. A drain tile will be placed along the  
back wall AND side to help the excessive run off  
from the steep hill.

Brookings County Board of Adjustment  
September 1, 2020– 8:00 PM meeting

# 2020var016 – September 1, 2020

Prepared by Richard Haugen

Applicant/Owner: Martin J. Comes, 45548 163<sup>rd</sup> St, Watertown, SD 57201  
Site: 122 S Lake Dr, Arlington, SD 57212

Legal Description: “Lots 43, 44A, 45, 45A, 45B of the First Addition of Lake Poinsett Heights Subdivision in Lot 2, Section 5, T112N, R52W ( Laketon Township)” ~~ located at 218 S Lake Dr, Arlington, SD 57212.

*Brookings County Zoning Ordinance: Article IV District Requirements: Chapter 4.03 “LP” Lake-Park District: Section 4.03.03. Density, Area and Yard Regulation (Minimum Lake Front and Minimum Side Yard).*

2020var016: Marty Comes has applied for a variance to build a residence with an attached garage 15 feet from the highest known water mark on a lake front lot and 15 feet from the rear property line on a non-lake front lot. A variance of 60 feet from the highest known water mark and a variance of 10 feet from the rear property line on the non-lake front lot. The lake side setback is 75 feet from the highest known watermark and the rear setback for a non-lake front lot is 25 feet from the property line. The west part of the shoreline jogs in where the setback is 15 feet, farther to the east the main portion of the proposed house the setback will be 23 feet from the highest known water mark. This variance request is unique in that two of the lots are lake front lots and the adjoining rear lot is a non-lake front lot. The proposed house will exceed the side setback of 8 feet and meet the 25 feet road setback on both the lake front and non-lake front lot. The applicant has added fill to raise up lot and stabilized the shoreline. Part of the property is located in the floodplain and the applicant will need to follow the building requirements for building in the floodplain.

Things to consider: 1) Marvin Wade Subdivision was platted on May 24<sup>th</sup>, 1949;  
2) Shape and size of lot; 3) Non-lake front lot adjoining the lake front lots.

The “Brookings County Comprehensive - Plan Future Land Use-Developed Lakes Future Land Use” found on page 58 –*In paragraph two: “It is likely that the established developed areas of Lake Campbell, Lake Hendricks, Lake Tetonkaha, and Lake Poinsett will experience continued development in varying degrees. While non-lake front growth potential exists for all of the able lakes; significant lake front area is appropriately zoned, and subdivided in some cases, adjacent to Lake Tetonkaha, Lake Hendricks, and Lake Campbell.”*

Letters were sent to the adjoining landowners, Laketon Township Chairman and Clerk and Brookings County Highway Department.

Public notices were published in the Brookings Register on August 18 and 25, 2020 and the Arlington Sun on August 20 and 27, 2020.

2020cu017: Tom Davis, has applied for a conditional use # 5A: “Rock crushers.” to process mined gravel on the above described property. ## Application for Conditional Use

- Business Plan- Schade Vineyard and Winery has been in business for 20 years. We feel that the next step of this company is to become an event venue. The market has never been better for boutique event venues. Our main focus would be weddings, but not limited to them. We could also host graduations, corporate retreats, birthday parties, anniversaries, and many more events. We have years of experience in hosting large to small events, anywhere from 20-500 people. To give our customers the best experience possible, we feel that we need to expand our business. This would include a new event building as well as a large parking lot. We plan on partnering with Hitch Studio in Brookings to be our wedding organizer and planner. We are still in the works of finalizing a contract and are still unsure of exactly how that relationship will look. It will be 120'x64' situated on the property near attached to an existing building. It will have a main room that is 64x120' that can adequately hold 500+ guests. It will have a bar, 2 full ADA restrooms, prep kitchen, storage room, utility room, groom's loft, and a bridal suite. We do have a prep kitchen, but we will not be serving food, it must all be catered in from a certified kitchen. This space will be used year round. There will also be an area to have the wedding ceremony, a truly one stop shop experience. Our goal is to make a truly unique wedding experience at an affordable rate. This is something that will greatly benefit Brookings County.
- The hours of operation will be 8:00 AM - 12:00 AM, with setup starting at 8:00 AM, the event, and alcohol sales ending at 12:00 AM; clean up and closing at 1:00 AM.
- The building will be built in 2-3 years. Until then we will be utilizing a 40x120 frame tent. It will stay set up throughout spring, summer and fall and then be taken down in the winter. The restrooms, bridal suite, and grooms suite will all be built this fall.
- DNR Septic System-**

Talked with DNR, they suggested using a certified septic installer from the list on their website. That is our plan. It will be a 1,000 gallon tank with a large drain field.
- SD Department of Health recommendations-**

Prep Kitchen- 3 basin sink and separate hand washing sink. Construction will be smooth walled ceiling and sealed floor.

Bar- Triple basin sink and separate hand washing sink.

\*This is not required because we are not making food, this is a voluntary permit.
- Restrooms- They will be fully ADA Men's and Women's restrooms. Each will have a handicap stall. Men's will have 1 stall, 3 urinals, and 2 sinks. Women's will have 4 stalls and 2 sinks. They will each be equipped with floor drains as well.
- Capacity of building- Capacity of 500 guests with 8448 square feet of usable floor space for guests.

- **Parking-** parking can accommodate 98 cars in the venue parking lot, 6 of those being handicapped spots and 1 of them being van accessible. There will also be a drop off spot for a shuttle service, as many Brookings hotels offer this. There will also be overflow available for another 100+ cars in different areas, we have an agreement with the neighboring land owner to utilize some of his ground as parking. Industry standard is 3.33 guests per car which should give us plenty of parking area.
- No lodging of guests

**Construction storm water construction permit-**

We will be disturbing more than an acre of ground so we will be required to apply for a storm water permit.

**Dust Control-** We currently use MAG water on the access road and will continue to do so. We will also use MAG water on the rest of the parking lot.

**EMERGENCY PLANS-**

- **Security-** If wedding party requests a security presence; we will contract through the Brookings County Sherriff's office.

**Severe Weather-** Tornado/High winds- Everyone will be ordered to go to the winery as this building has no windows. It is larger than 2,000 Sq. Ft. which is adequate space for 500+ people for standing and enough seating for elderly and young. There is a restroom, drinking water, fire extinguishers, and a first aid kit in the winery. Staff and customers will be released from the building when the warning has been lifted.

**Power outage-** Electrical system will be fitted with portable generator backup capabilities. Key staff will be trained on operation of this. This will only power the essential items: lighting, refrigerators, and select outlets.

**Thunderstorm-** All customers and staff will be directed indoors to the venue until storm passes. Guests and staff will be encouraged to stay away from doors and windows.

**Alcohol related incidents-** All staff handling alcohol will be Servsafe certified, which is already required for all winery staff.

**Fire-** There will be fire extinguisher at the 2 main exits, near the restroom and in the prep kitchen. Staff will be trained on where those are located and how to use those. Venue manager will be in charge of contacting fire department if it is needed. Guests will be directed to the exits and will remain at a safe distance until the building is safe.

**First Aid-** First aid kits will be located in the bar area and the prep kitchen. Staff will be trained on how to use those.
