

## Agreement on variance of zoning regulations

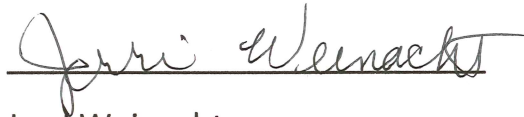

---

Frido and Sonja Verpaalen, owners of Old Tree Farms, LLC, are currently in the process of expanding their current Class A CAFO permit to 5000 units. The expansion will be at the north-east side of the current buildings. The goal of this expansion is to start raising our own young animals on site.

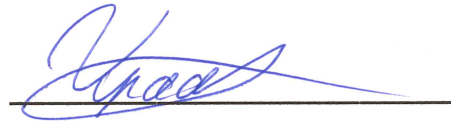

We are contacting you about this, because your property and <sup>house → FV</sup> well are within the required setbacks and separation distance of our expansion.

By signing this document, you are agreeing to a variance to meet set back requirements from the existing residence.

This document is dated the 9th day of February 2021.

Jerri Weinacht
