Good Morning Stacey

I Have the DOT Contract amount revised to be resigned by the commission on the 17th of may. When i initially filled out the contract i was under the understanding that you could bid 25,000.00, come to find out the bid has to be under 25,000.00 otherwise they would have to open up the contract to bids. Matthew Brey Called and explained to me that if we wanted to continue i need to refill out the contract for the DOT. I have looked through all of the records for dot contract and have not found anything where it states you have to be under 25,000.00 or if this is just a given? I apologize if this has caused any inconvenience. If you have any other questions please let me know.
