

March 7 thru March 21, 2019

**Highway
Department**

- Working on flooding in the area. Have had a few road closures but have been able to keep ahead of the water.
- On Tuesday I met with Scott Bjerke (township representative) and Frido Verpaalen concerning the Manure pumping permit. We viewed the location and I told them it is ok.
- I drove to Rapid City on Wednesday to pick up a pump to help us move the water. It will also help a great deal for future projects for the county.
- The south bridge is completely out on 471 Ave.
- Ted Egebraaten hire Banner Associates to do bridge inspections in 1994. In 1996 he hired CDI and went back to Banner Associates in 1998. They have been doing the bridge inspections since that date.
