Research Park  
8:30 AM – 10:00 AM

The Center for the Prevention of Childhood Maltreatment has identified Brookings as a prime candidate for the first recipient of its "SD Resilient Community" status. Working together, we have already achieved many of the benchmarks identified by CPCM, but there is still conversations and collaborative steps we need to take to further align practices and policies to reduce barriers for victims of childhood maltreatment.

Please plan to attend this working meeting. Our goal will be to identify current successes and gaps in Brookings' progress towards the SD Resilient Community benchmarks.

Thank you!
