2:53 PM – January 21, 2020

Vernelle Clayton called in to inquire as to the requests 2020cu006 (Mining) & 2020cu007 (Rock Crusher) made by Lawrence Rogge.

She noted she owned land across the road to the west of the proposed site and was against the proposed applications listing:

- 1) Concern regarding traffic, dust, noise and night time lights.
- 2) Concern with the overall appearance of a gravel pit and the view from Hwy 30.
- 3) She was concerned with the visual impact and the possible decline in the value of her property if the gravel pit was located across the road from her land.
- 4) She was also concerned with possible environmental impacts that could occur as the site was a former school site and had at one time had a well located in the area. Concern of run-off issues.
