

**Highway
Department**

March 24, 2020 thru April 21, 2020

- I have been meeting or discussing with a few townships in regards to the culvert program.
 - * Oak Lake Township
 - * Trenton Township
 - * Oslo Township
 - * Volga Township

- 06-169-138 & 06-169-139, Bridges south on BC 77. Prahm Construction is looking to return to site as river levels have now neared the flood stage of 8.0', as of 04/15/2020 the river level is setting at 8.1' so they are looking to return on 04/20/2020 to recommence working.

- 04/13/2020 the Highway Department department reached out to local contractors in an effort to all but limit traffic on BC 21 or 34th Avenue between BC 26 or 32nd Street and SD 324 due to road break up in that area, we also posted "No Thru Truck" signs at either end of that stretch.

- 04/14/2020 Brookings County crews completed our crack sealing for the 2020 chip seal routes which consist of 40.1 miles, so that has been the main focus of the crews time this last month.
 - Brookings County 4
 - Brookings County 5
 - Brookings County 7
 - Brookings County 9
 - Brookings County 35

- 04/14/2020 looked at a semi-truck that would suit our needs at the highway department, I was planning on purchasing a multi-use semi-truck/plow truck but due to the COVID-19 issues I was informed by our Trans Source Mack dealer due to their plant shut down and the unknowns we most likely wouldn't receive our budgeted truck until late this year or early next if they get their plant back on line soon.
 - \$230,000 Budgeted in 2020 for semi-truck/plow truck
 - Would like to get an additional semi-truck to improve efficiency this year
 - We would still have a functional use for the used semi-truck in the future
 - \$47,000 is the price of the used semi-truck
 - If we did happen to receive our budgeted truck at \$230,000 we would still have budgeted dollars left in my current budget to absorb the \$47,000 as the Mechanic Service Truck that was budgeted at \$100,000 was purchased at \$49,500 leaving us a total of \$50,500 for that budgeted item.
 - I have attached some comparable semi-truck prices.
 - We will be looking at surplus 1 if not 2 units with the purchase of this used truck

- 04/15/2020 after hearing about severe erosion issues from locals on BC Structure #06-132-140 on 210th Street approximately 1 mile east of the cement bubble, we will be determining a more permanent solution but in the mean time we will ensure safe travel over that series of pipe.

Brookings County Projects Plan 2020

Work Type	Road #	Road Information	(Township)	Funding	Miles	Estimated Cost	
						per mile	Estimated Total Cost
Chip Seal	CoRd 7	466 Ave. from 196-211			16	\$21,500.00	\$344,000.00
