You don't often get email from [toddvoss1212@gmail.com](mailto:toddvoss1212@gmail.com). [Learn why this is important](#)

I sending this email in reference to the work being considered on the diversion ditch/ big Sioux river project. Just wanna let you know I'm not in favor of plugging up that ditch which allows water to cross the hyway to the south. If this is plugged I believe it's gonna cause major problems with my land and several others from the river essentially being dammed up and flow restriction greatly increased. I know the big Sioux can be a tricky thing to deal with but in most instances it is gonna do whatever it wants and I don't think you guys trying to change it's flow is gonna be a positive outcome. Any questions 6056907900. But to be clear I'm not in favor of this project !!
